

Automated process  
for fast rich media banner creation

## Video advertising works!

People are just starting to get used to seeing video in ads online, it is new, revolutionary, attention grabbing.

Do you have a video clip that could be used for advertising? Create a video banner yourself. It's simple, easy and it's guaranteed to work! People will stop and look at your ad.

We have automated rich media banner creation process and now can produce an unlimited number of different video banners quickly. You can create one to test it - or have a large number created automatically.

Say more with video ads - sound, pictures, and your message with your web site address with additional copy around.

### Advertise smarter

Getting video into your banner is only half the problem, it will attract more attention. Don't stop there, take it a step further. Get your message across by wrapping the video into an image.

You need to give the viewers a chance to quickly get down all the info they need. Many people don't watch all the way to the end or bother to follow the running line of text while the video is playing. Give them an easier solution, put the video in an image.

### It's easy!

Send us your videotape, analog footage or upload a file, and we will create a banner specially for you. It is that simple! You will be able preview results, submit your comments and get revisions.

We accept all analog video formats, tapes / reels, even broken video tapes. We will develop a whole set of different size banners for you, including all the standard sizes.

### 10 times more. Or more.

All your banner has is a glance. A second, maybe two seconds of attention. Will you make it with just showing a picture? How about expanding the ad view time to 30 seconds? If your video clip grabs viewer's attention - he will look it through. And even if
